Sustianable Garden Awards Scoring Worksheet

Directions: Read through the guestionnaire first and give your ratings for sustainability, below. Then review the photos and give a score for beauty, on the back.

ID#	Makes Observations (5)	Creates Healthy Plants (5)	Builds Healthy Soil (5)	Conserves Water (5)	Encourages Biodiversity (5)	Improves Air Quality (5)	Creates Abundance (5)	Creates no Waste (5)	Total
	Give a rating from 1-5 for each of the areas above. How well does the garden exemplify sustainable techniques and strategies? Rate as follows: 4-5 = This garden exemplifies the Sustainable Landcare (SL) Principles extremely well; 2.5-4 = this garden exemplifies the SL principles very well; 1-2.5 = Few sustainable practices were described/The garden somewhat features SL principles. 0 - 1 = SL principles were not described. Use additional space below to jot down any features that you want to highlight (either areas that were exemplary or those which stood out for their lack of attention).								

	T				
ID#	Overall Beauty and Design (20)	Notes			
	How well does the description and photographs express the overall beauty of the garden? How well does the garden feature pleasing color, patterns and texture as well as balance and overall design? 16-20 = extremely well, has good garden design/aesthetics; 11-15 = very well, good garden design 6-10 = somewhat; 1-5 = not well	Use this space to say more about why you gave the scores that you did. What did you like about this garden? What are the areas for improvement?
